

ENGIN 604 INTRODUCTION TO PYTHON FOR FINANCE - FALL 2021

HOMEWORK POLICIES

See the homework policies at <https://docenciaweb.fen.uchile.cl/>

Policies

- No late days or extensions are allowed.
- Each homework assignment may be completed in groups of maximum 2 members per group.
- Each homework assignment contributes equally to the weight corresponding to homework (70%).
- You must submit a file in PDF format or a Jupyter Notebook (.ipynb).
- Together with the PDF file you must attach¹ a Python *script* (.py) and email it to engin604assignments@gmail.com.

The name of the PDF file or Jupyter Notebook (.ipynb) must be ▲:

- [last-name-student-1]-[last-name-student-2]-homework[number].pdf; for example, for the solution to homework 3 you should name your file **cabrera-denbraber-homework3.pdf** or **cabrera-denbraber-homework3.ipynb**

The name of the script must be ▲:

- [last-name-student-1]-[last-name-student-2]-homework[number].py; for example, for the solution to homework 3 you should name your file **cabrera-denbraber-homework3.py**

The subject of the email must be ▲:

- [last-name-student-1]-[last-name-student-2]-homework[number]; for example, for the solution to homework 3 you should name the email subject **cabrera-denbraber-homework3**

- Homework must be submitted before 11:59pm on the due date indicated in the assignment statement.
- Any external source (*papers*, books, lectures, etc) used must be referenced (it does not count toward the maximum number of pages indicated in the assignment statement).
- All of the above also applies to those who wish to complete the homework individually.

¹If you use a Jupyter Notebook (.ipynb) it is not necessary to send a script (.py).
